

The following pages do not contain the entire Codebook for 2000. This is a listing of derived variables contained in the codebook and sorted by section concept and variable label as given in Table of Concepts (2000). Anyone planning to work with the sample data set who has completed a data access form and been approved for data access will be given the detailed codebook.

OCHS 2000: Derived Variables List

Section

<i>Concept</i>	<i>Variable Label</i>	<i>Description</i>	<i>Variable Name</i>	<i>Direction</i>
<i>Health</i>				
General Health	Age first had back pain	Age first had back pain lasting for more than one day.	X31stBCK	
General Health	Back Pain	Back Pain	X3BACK	
General Health	Bodily pain	Component of SF-36	X3PAIN	Negative (Higher score indicates lower bodily pain)
General Health	Body Mass Index	Obesity	X3BMI	
General Health	General health perceptions	Component of SF-36	X3GENHLT	Positive (high score indicates better health perceptions)
General Health	General mental health	Component of SF-36	X3MENTAL	Positive (higher score indicates better general mental health)
General Health	HEIGHT	HEIGHT IN M	X3HEIGHT	
General Health	Injury Status	Injuries	X3INJST	
General Health	Mental health summary score	Summary Measure of SF-36.	X3MCS	Positive (higher scores indicates better mental health)
General Health	Mental health summary score - Canadian norms	Summary Measure of SF-36.	X3MCSC	Positive (higher scores indicates better mental health)
General Health	Number of Chronic Conditions	chronic conditions, limitations	X3NCHRON	Positive
General Health	Physical functioning	Component of SF-36	X3PHYFUN	Positive (high score indicates better physical functioning)
General Health	Physical health summary score	Summary Measure of SF-36.	X3PCS	Positive (higher score indicates better physical health)
General Health	Physical health summary score - Canadian norms	Summary Measure of SF-36.	X3PCSC	Positive (higher score indicates better physical health)
General Health	Role limitation - emotional	Component of SF-36	X3ROLEEM	Negative (higher score indicates lower emotional role limitation)
General Health	Role limitation - physical	Component of SF-36	X3ROLEPH	Negative (higher score indicates lower physical role limitation)
General Health	SF-12 Energy and Vitality	Component of SF-12	X3SF12EN	Positive (higher score indicates more vitality and energy, less fatigue)
General Health	SF-12 General Health Perceptions	Component of SF-12	X3SF12GH	Positive (high score indicates better health)

perceptions)

Section

Concept	Variable Label	Description	Variable Name	Direction
General Health	SF-12 Mental Health	Component of SF-12	X3SF12ME	Positive (higher score indicates better general mental health)
General Health	SF-12 Mental Health Summary Measure	Summary Measure of SF-12	X3SF12MS	Positive
General Health	SF-12 Pain	Component of SF-12	X3SF12PA	Negative (Higher score indicates lower bodily pain)
General Health	SF-12 Physical Functioning	Component of SF-12	X3SF12PH	Positive (high score indicates better physical functioning)
General Health	SF-12 Physical Health Summary Measures	Summary measure of SF-12	X3SF12PS	Positive
General Health	SF-12 Role Limitations - Emotional	Component of SF-12	X3SF12RE	Negative (higher score indicates lower emotional role limitation)
General Health	SF-12 Role Limitations -	Component of SF-12	X3SF12RP	Negative (higher score indicates lower physical role limitation)
General Health	SF-12 Social Functioning	Component of SF-12	X3SF12SO	Positive (higher score indicates better social functioning)
General Health	SF-12 Total Score	Summary Measure of SF-12	X3SF12	
General Health	Social functioning	Component of SF-36	X3SOCFUN	Positive (higher score indicates better social functioning)
General Health	Vitality, energy or fatigue	Component of SF-36	X3ENERGY	Positive (higher score indicates more vitality and energy, less fatigue)
General Health	WEIGHT	WEIGHT IN KG	X3WEIGHT	
Health risk behaviours	Age first had 3 or more drinks	Tobacco & Alcohol Use	X31stBZ	
Health risk behaviours	Age first starting smoking daily	Tobacco & Alcohol Use	X31stSMK	
Health risk behaviours	Alcohol Use Disorders Identification Test	Current use of alcohol	X3AUDIT	Positive - higher score indicates more likely to have an alcohol use disorder
Health risk behaviours	Drug use - impairment score	current use of illicit drugs	X3DRIMP	Positive
Health risk behaviours	Drug use - number of drugs (without presc) used in last 12mths	current use of illicit drugs	X3DRUGS	Positive
Health risk behaviours	Smoking Pattern	Current Tobacco use	X3SMKPAT	
Health risk behaviours	Smoking Status - Daily Smoker	Current Tobacco use	X3SMOKER	

Section

Concept	Variable Label	Description	Variable Name	Direction
Health				
Partner's health	Bodily Pain - Partner	Component of SF-36	X3SPAIN	Negative
Partner's health	Emotion Role Limitations - Partner	Component of SF-36	X3SPROLM	Negative
Partner's health	General Health Perceptions - Partner	Component of SF-36	X3SPGENH	
Partner's health	general mental health - Partner	Component of SF-36	X3SPMENH	
Partner's health	Physical Functioning -	Spouse's general health - component of SF-36	X3SPHYFN	Negative
Partner's health	Physical Role Limitations - Partner	Partner - Component of SF-36	X3SPROLP	
Partner's health	Social Functioning - Partner	Component of SF-36	X3SPSOCF	
Partner's health	Transformed Mental Score - Partner	Summary measure of SF-36	X3SPMCS	Positive (higher scores indicates better mental health)
Partner's health	Transformed Mental Score - Partner - Canadian Norms	Summary measure of SF-36	X3SPMCSC	Positive (higher scores indicates better mental health)
Partner's health	Transformed Physical Score - Partner	Summary measure of SF-36	X3SPPCS	Positive (higher scores indicates better physical health)
Partner's health	Transformed Physical Score - Partner - Canadian Norms	Summary measure of SF-36	X3SPPCSC	Positive (higher scores indicates better physical health)
Partner's health	Vitality, Energy or Fatigue - Partner	Component of SF-36	X3SPENEF	Positive
Psychological health/well-being	Major depression - NPHS	CIDI-SF DSM-IV	X3MDNPHS	
Psychological health/well-being	Major depression score	CIDI-SF DSM-IV	X3MDSCOR	Positive
Psychological health/well-being	Probable major depression case	CIDI-SF DSM-IV	X3MDCASE	
Psychological health/well-being	Rosenberg Self-Esteem Scale	Self-esteem	X3ROSENB	Negative
Social integration	Satisfaction with life scale	satisfaction with life	X3SATIS	Positive
Parenting Role				
Child behaviour	Conduct disorder - child	Aspect of psychosocial functioning.	X3CHCD	Positive
Child behaviour	Emotional disorder - child	Aspect of psychosocial functioning.	X3CHEMOT	Positive
Child behaviour	Hyperactivity - child	Aspect of psychosocial functioning.	X3CHHYP	Positive
Child behaviour	Prosocial behaviour - child	prosocial behaviour	X3CHPRSO	

Section

<i>Concept</i>	<i>Variable Label</i>	<i>Description</i>	<i>Variable Name</i>	<i>Direction</i>
<i>Parenting Role</i>				
Child behaviour - Partner's response	Conduct Disorder of child - Partner	Aspect of psychosocial functioning.	X3SPCD	Positive
Child behaviour - Partner's response	Emotional Disorder of Child - Partner	Aspect of psychosocial functioning.	X3SPEMOT	Positive
Child behaviour - Partner's response	Hyperactivity of Child - Partner	Aspect of psychosocial functioning.	X3SPHYP	Positive
Child demographics	Age in years of selected child	age of selected child	X3AGEYRS	
Child health	Child General Health Perceptions	physical health of child	X3CHHCAT	
Child health	Child General Health Scale	physical health of child	X3CHGENH	Positive (higher score represents better health)
Parent role	Age first became a single parent	duration of single parenthood	X31stSPT	
Parent role	Mean Parental Disagreement Score	disagreements about parenting	X3PRAGR	Negative - lower score indicate higher parental disagreement
Parent role	Mean Parental Satisfaction Score	parental satisfaction/aggravation	X3PRSAT	Negative
Parent role	Parenting - Consistency	parenting style	X3PRCON	Positive - higher score indicates more consistent parenting
Parent role	Parenting - Hostile/Ineffective	parenting style	X3PRHOS	Positive - Higher score indicates more hostile/ineffective parenting
Parent role	Parenting - Positive Interaction	parenting style	X3PRPOS	Positive - Higher Score indicates more positive interaction
Partner's parent role	Mean Parental Disagreement Score - Partner	Parental disagreement	X3SPRAGR	Negative - lower score indicate higher parental disagreement
Partner's parent role	Parenting - Consistency - Partner	Aspect of NLSCY parenting style	X3SPRCON	Positive - higher score indicates more consistent parenting
Partner's parent role	Parenting - Hostile/Ineffective - Partner	Aspect of NLSCY parenting style	X3SPRHOS	Positive - Higher score indicates more hostile/ineffective parenting
Partner's parent role	Parenting - Positive Interaction - Partner	Aspect of NLSCY Parenting Style	X3SPRPOS	Positive - Higher Score indicates more positive interaction
<i>Social Role Functioning</i>				
Family relationship	Childhood Experiences of Violence	Early childhood bullying/abuse	X3SPHYAB X3PHYAB X3SEXAB X3SSEXAB	
Family relationship	Death of Parent during Childhood	Death of a parent at or before age 18	X3PRTDTH	
Family relationship	Family Functioning Scale	Family Functioning	X3FAD	Negative

Section

<i>Concept</i>	<i>Variable Label</i>	<i>Description</i>	<i>Variable Name</i>	<i>Direction</i>
<i>Social Role Functioning</i>				
Family relationship	Family Functioning Score - Partner	family functioning	X3SPFFUN	
Family relationship	Number of years since respondent left childhood home	Family History	X3LHMDUR	
Family relationship	Parental Emotional Well-Being - Moderate Behaviours	Family History	X3FAMH	Negative
Family relationship	PBI - maternal caregiver/ mother	Perceptions of Parenting - Parental Bonding Instrument	X3PBICAM	Positive (higher score indicates positive perception of maternal caregiver)
Family relationship	PBI - overprotection,	Family Functioning	X3PBIOPF	Positive - higher scores indicates more overprotective
Family relationship	PBI - overprotection,	Family Functioning	X3PBIOPM	Positive - higher score indicates more overprotective
Family relationship	PBI - paternal caregiver/ father	Family Functioning	X3PBICAF	Positive (higher score indicates positive perception of paternal caregiver)
Family relationship	Relation to Parental Figures	Family History	X3PRTRLN	
Family relationship	Relationship between parental figures	Family History	X3FAMHRL	
Partner relationship	Adult Attachment Style	adult attachment style	X3ATTCH	
Partner relationship	Age first in a marriage-like relationship	Partnership history	X31stREL	
Partner relationship	Duration of currently marriage-like relationship	Partnership history	X3RELDUR	
Partner relationship	Never in a marriage-like relationship and not currently in a relationship	Partnership history	X3RELNVR	
Partner relationship	Number of partners have had a marriage-like relationship with	Partnership history	X3RELNUM	
Partner relationship	Number of years knew partner before entering first marriage-like relationship	Partnership history	X3RELYRK	
Partner relationship	Relationship Assessment Scale	Quality of partnership	X3TOTRAS X3AVRAS	Negative

Section

<i>Concept</i>	<i>Variable Label</i>	<i>Description</i>	<i>Variable Name</i>	<i>Direction</i>
<i>Social Role Functioning</i>				
Partner relationship	Relationship Status	Partnership history	X3RELST	
Partner's behaviour	Problem Behaviour Scale- Partner	partner problem behaviour	X3PBEH	
Partner's behaviour	Prosocial Behaviour - Partner	Partner's behaviour	X3SPRSOC	
Partner's behaviour	Satisfaction Scale - Partner	Partner's behaviour	X3SPSATS	
Partner's behaviour	Spouse/partner problem behaviour	partner's behaviour	X3SPBEH	Positive
Quality of partnership	Relationship Assessment Scale - Partner	quality of partnership	X3SPTRAS, X3SPARAS	
Social integration	Attended religious services at least monthly	Social integration	X3RELIG	
Social integration	Civic Mindedness - Belonged to a club	Civic-mindedness	X3CLUB	
Social integration	Civic Mindedness - donated blood, number of times donated blood	Civic-mindedness	X3BLD, X3BLDNM	
Social integration	Civic Mindedness - made financial contribution to a charitable institution	Civic-mindedness	X3VOLDON, X3VOLDAM	
Social integration	Civic Mindedness - volunteered for an organization	Civic-mindedness	X3VOLORG, X3VOLOHR	
Social integration	Civic Mindedness - volunteered informally with family and friends	Civic-mindedness	X3VOLINF, X3VOLIFQ	
Social integration	Civic-mindedness Activities - Sum	Civic-mindedness	X3SUMCIV	Positive
Social integration	Delinquent behaviour	delinquent behaviour	X3ASOC	Positive
Social integration	Life-changing experineces	Important experiences	X3LEXP, X3LEXPSC	
Social integration	Neighbourhood - problem score	Perceptions of neighbourhood quality - NLSCY	X3NGHPRB	Positive
Social integration	Neighbourhood - social cohesion score	Perceptions of neighbourhood quality - NLSCY	X3NGHCOH	Positive
Social integration	Relationship with Close Friends	Current relations with family and friends	X3RELFRD	Positive
Social integration	Relationship with Close Relatives	Current relations with family and friends	X3RELFAM	Positive
Social integration	Relationship with Father	Current relations with family and friends	X3RELFTH	Positive

Section

<i>Concept</i>	<i>Variable Label</i>	<i>Description</i>	<i>Variable Name</i>	<i>Direction</i>
<i>Social Role Functioning</i>				
Social integration	Relationship with Mother	Current relations with family and friends	X3RELMTH	Positive
Social integration	Relationship with Neighbours	Current relations with family and friends	X3RELNGH	Positive
Social integration	Social nurturance	social nurturance	X3SOCNR	Negative
Social integration	Social phobia case - score 2+	Social phobia	X3SOPHCA	
Social integration	Social phobia score	Social phobia	X3SOPHC	Positive
Social integration	Stressful Events	Important experiences	X3STREVN	
<i>Sociodemographic</i>				
Partner's sociodemographics	Personal Income - Partner	partner's income	X3SPINC	
Partner's sociodemographics	Pineo-Porter Spouse	16 Category pineo code for spouse	X3SPPN16	Negative (Higher score indicates lower position in occupational hierarchy)
Partner's sociodemographics	Spouse's Country of Birth	Partner's country of birth	X3SPBRTH	
Partner's sociodemographics	Spouse's labour force status	partner's labour force status	X3SPLFST	
Sociodemographic	Age first got drivers license	age first	X31stLIC	
Sociodemographic	Age first left home	age first	X31stLHM	
Sociodemographic	Age first owned a car	age first	X31stCAR	
Sociodemographic	Age first owned home	age first	X31stHM	
Sociodemographic	Children Under 15 in Household	number of children	X3CHLDRN	
Sociodemographic	Consumer Price Index for 1982 & 1986 in 1999 dollars	CPI to adjust income for inflation	X3CPI82, X3CPI86	
Sociodemographic	Family SES	Based on NLSCY method	X3FAMSES	
Sociodemographic	Highest Level of Education Attainment	Educational attainment	X3EDU	Positive
Sociodemographic	Highest POTENTIAL level of education to be attained	Potential educational attainment	X3EDUPOT	Positive
Sociodemographic	Home Owner	Currently owns home	X3HMOWN	
Sociodemographic	Home Repair	HOME IN NEED OF REPAIR	X3HMRP	
Sociodemographic	Hourly Wage	hourly wage	X3HRWAGE	
Sociodemographic	Household income	Annual Income	X3HHINC	

Section

<i>Concept</i>	<i>Variable Label</i>	<i>Description</i>	<i>Variable Name</i>	<i>Direction</i>
<i>Sociodemographic</i>				
Sociodemographic	Household Income Adjusted for Household Size	Adjusted household income	X3HHINCA	
Sociodemographic	household income, in 1992 dollars	household income, 1992 dollars	X3HHIN92	
Sociodemographic	Language spoken at home	language spoken at home	X3HLANG	
Sociodemographic	Low Income Household	low income indicator	X3SCPOV	
Sociodemographic	Overcrowded household	Number of rooms to family size. An overcrowded household has one or less room to each household member.	X3CROWD	
Sociodemographic	Personal Income	Annual Income, all sources	X3INC	
Sociodemographic	Rent-Subsidized Housing	Home is rent-subsidized	X3HMSUB	
Sociodemographic	Urban Community Size	urban indicator	X3URBAN	
Sociodemographic	Urban/Rural Indicator	urban/rural indicator	X3URBRUR	
Sociodemographic	Weekly Wage for full-time workers	Weekly wage for respondents working a minimum of 35 hours per week	X3WKWAGE	
Sociodemographic	Years of education	years of education	X3YREDU	Positive
Sociodemographic	Years of education - Spouse	Years of education	X3YREDSP	
<i>Sociodemographics</i>				
Labour force participation	Attending School	Education	X3SCH	
<i>Work main role</i>				
Labour force attachment	Labour force attachment (subjective)	Subjective	X3LFASUB	Negative
Labour force attachment	Months Employed in Last Year	Work Calendar	X3EMP12	
Labour force attachment	Months Out of Labour Force in Last Year	Work Calendar	X3OUTL12	
Labour force attachment	Months Unemployed in Last Year	Work Calendar	X3UNEM12	
Labour force attachment	Work Calendar - Number of Spells	Work Calendar	X3EMPSP, X3UNEMSP, X3SCHSP, X3OTHSP	

Section

Concept	Variable Label	Description	Variable Name	Direction
<i>Work main role</i>				
Labour force attachment	Work Calendar - Distribution of Time in employment, unemployment, school and other	Work Calendar	X3SCEMPC, X3EMPPC, X3SCHPC, X3UNEMPC, X3OTHPC	
Labour force attachment	Work Calendar - Sum of Months	Work Calendar	X3EMPTL, X3UNEMTL, X3SCHTL, X3OTHTL - TEMP	
Labour force entry	Age first began working at a desired job	Labour force entry	X31stEMP X3DJST	
Labour force participation	Age first left school	Age first left school with no plans to return	X31stLSC	
Labour force participation	HomeMaker - Respondent's Main Activity	Homemaking	X3HMMKR	
Labour force participation	Labour Force Status	Labour force participation	X3LFSTAT	
Labour force participation	Logit Pineo	Occupational	X3PINLGR X3PINLGS	
Labour force participation	Main Activity	Labour force participation	X3MAIN	
Labour force participation	Pineo code - 16 category	Occupational Status	X3PIN16	Negative (Higher score indicates lower position in occupational hierarchy)
Psychosocial	Career Expectations	Career expectation	X3CAREXP	Negative
Psychosocial	Job Satisfaction	Job satisfaction	X3JSAT	Positive
Psychosocial	Job Security	Job insecurity	X3JSEC	Negative
Psychosocial	Social Support at Work	Social support at work	X3SSSUP X3SSWRK	Negative
Psychosocial	Work-Home Conflict	work-home conflict	X3WKCHM X3HMCWK X3WKHMC	Positive (higher score indicates more conflict between work and home)
Quality of work	Physical demands of job on body	physical demands	X3BORG	
Quality of work	Quality of Work - Job Content Questionnaire	Job content questionnaire	X3JCQSD X3JCQDA X3JCQDL X3JCQJD	Negative
