ADULT ATTACHMENT STYLE

C19 For the next question, please turn to page 6 of your response booklet and read the three statements.

Statement A reads ... I find it relatively easy to get close to others and am comfortable depending on them and having them depend on me. I don't often worry about being abandoned or about someone getting too close to me.

Statement B reads ... I am somewhat uncomfortable being close to others, I find it difficult to trust them completely, and difficult to allow myself to depend on them. I am nervous when anyone gets too close, and often, romantic partners want me to be more intimate than I feel comfortable being.

Statement C reads ... I find that others are reluctant to get as close as I would like. I often worry that my partner doesn't really love me or won't want to stay with me. I want to merge completely with another person, and this desire sometimes scares people away.

Which one best describes your feelings?
